Seminar Series

Milton Love, UC Santa Barbara
Tuesday, October 20th @ 10 am Pacific
**What We Did On Our Fall Vacations –
Submersible Research on the Fishes of
Southern California Oil/Gas Platforms**

Most of us lead drab and colorless lives as drones and cogs in faceless organizations. With his tales of research around southern California oil and gas platforms, Milton (only his wife calls him Dr. Love) will enter your world like a bright and fanciful rainbow, or a swatch of William Morris wallpaper, or perhaps one of those Baratza espresso makers that look like something out of a caffeine-induced fantasy. A career retrospective published earlier this year in the ICES Journal of Marine Science (<https://doi.org/10.1093/icesjms/fsaa002>) summarizes in a text-only format what Milton will share with us in an audio-visual extravaganza.
