

# Meeting purpose and goals

- Workgroup purpose: provide advice to the Council to aid their choice of a SONCC coho control rule that will be recommended to NMFS
- Includes developing a suite of control rules, evaluating the control rules with a risk assessment approach, and conveying our results to the Council
- The WG next reports to the Council at their November meeting
- WG will submit a progress report for the advanced BB (Oct 15)
- WG will submit a “Supplemental Workgroup Update” for the supplemental BB deadline (Oct 30)

# This meeting

- Further develop risk assessment
- Evaluate needs for abundance forecasting
- Develop alternative control rules
- Draft the “Supplemental Workgroup Update”
  
- Leave meeting with:
  - A plan for finalizing the Supplemental Workgroup Update for Nov PFMC
  - A task list with deadlines for the Nov PFMC meeting
  - A task list with deadlines for the next workgroup meeting (early January)
