

FAQs

Who will be in attendance?

The audience of the LINC conference will consist of students (at the undergraduates and graduate level), faculty, staff, LMRCSC alumni, LMRCSC mentors, and members of leadership. From the NEFSC, the scientific staff and some NOAA Office of Education and NOAA headquarters staff will participate.

How can I access the event?

The LINC conference will be available via the WebEx platform and all sessions will be recorded.

What are the dates and times?

The conference will be held on Tuesday, April 6 & Wednesday, April 7 2021, from 12:30pm - 5:00pm EST.

What is the NEFSC?

The NOAA Northeast Fisheries Science Center studies fishery species and fisheries, monitors and models ocean ecosystems, and provides reliable advice for policy makers. Our work promotes recovery and long-term sustainability of marine life in the region, supports both wild and cultured seafood harvests, helps sustain coastal communities, and generates economic opportunities and benefits from the use of these resources.

What is the NOAA LMRCSC?

The NOAA Living Marine Resources Cooperative Science Center (LMRCSC), led by the University of Maryland Eastern Shore, trains and graduates students from underrepresented communities in marine science for careers in research, management, and public policy that support the sustainable harvest and conservation of our nation's living marine resources. With its partner institutions, the LMRCSC conducts research on marine and estuarine systems congruent with the interests of NOAA Fisheries. The Living Marine Resources Cooperative Science Center is supported by the NOAA Education Partnership Program with Minority-Serving Institutions (EPP/MSI).

How do I join the conference?

A week before Day 1 of the conference, you will be emailed a link to access the WebEx information.

How do I access the recordings of the sessions?

Details will be provided closer to the conference date.
