Please keep your distance and keep all pets leashed and away from seals and sea lions. If you see a seal pup alone that appears to be injured, stranded or dead, protect the animal by keeping your distance and calling the Marine Mammal Stranding Network at 866-767-6114.

The pupping timeframes given are based on research by the Washington Department of Fish and Wildlife and the National Marine Mammal Laboratory. In individual cases pups may be born outside of these timeframes in unique situations.
