

**AMENDMENT 1 TO THE NORTHEAST FISHERY SECTOR XIII
OPERATIONS PLAN**

APPROVED BY NOAA'S NATIONAL MARINE FISHERIES SERVICE APRIL 27, 2019

EFFECTIVE APRIL 27, 2020, THROUGH APRIL 30, 2020

This amendment adds to Exhibit C of this operations plan the following language.

Minimum codend mesh size for directed redfish trips

This exemption allows a sector vessel to fish for Acadian redfish in the designated Redfish Exemption Area, described below, using nets with codend mesh no smaller than 5.5 inches. When fishing inside the Redfish Exemption Area all other restrictions applicable to trawl nets still apply. In order to use this exemption, a vessel must strictly adhere to the following conditions and restrictions:

- 1. The vessel must declare its trip in PTNS under standard requirements, there is no additional at-sea monitoring coverage required above the target coverage level for the sectors (i.e., ~15% in fishing year 2018).*
- 2. Prior to leaving the dock, the vessel must declare its intent to use the redfish exemption on the trip through the VMS trip start hail by checking the box "Redfish Trip" under sector exemptions.*
- 3. The vessel must submit a Multispecies Catch Report through its VMS system, each day for the **entire trip**, including Parts 1 and 2 of the trip as described below, even if the vessel has declared the exemption, but does not target redfish. The vessel must submit Multispecies Catch Reports through VMS in 24-hr intervals for each day of the fishing trip. The report must be submitted by 0900 hr (9:00 a.m.) on the date following the date the fish were caught. The report must provide a good faith estimate of the amount each regulated species caught on each day of the trip.*
- 4. In accordance with the restriction stated herein, the vessel may use a codend with 5.5-inch mesh and greater within the Redfish Exemption Area. The northern boundary ensures that the exemption is used in deeper water (i.e., greater than 50 fathoms). Vessels cannot use the exemption in the "cod closure" (block 131) during February and March.*

The Redfish Exemption Area is bounded on the east by the U.S.-Canada Maritime Boundary, and bounded on the north, west, and south by the following coordinates, connected by straight lines in the order listed:

<i>Point</i>	<i>N. Lat.</i>	<i>W. Long.</i>
<i>A</i>	<i>44°27.25'</i>	<i>67°02.75'</i>
<i>B</i>	<i>44°16.25'</i>	<i>67°30.00'</i>
<i>C</i>	<i>44°04.50'</i>	<i>68°00.00'</i>
<i>D</i>	<i>43°52.25'</i>	<i>68°30.00'</i>
<i>E</i>	<i>43°40.25'</i>	<i>69°00.00'</i>
<i>F</i>	<i>43°28.25'</i>	<i>69°30.00'</i>
<i>G</i>	<i>43°00.00'</i>	<i>69°30.00'</i>
<i>H</i>	<i>43°00.00'</i>	<i>70°00.00'</i>
<i>I</i>	<i>42°00.00'</i>	<i>70°00.00'</i>
<i>J</i>	<i>42°00.00'</i>	<i>67°00.63'¹</i>

¹*The intersection of 42°00' N. latitude and the U.S.-Canada Maritime Boundary, approximate longitude in parentheses.*

Due to concerns about GOM cod, block 131 is closed for February and March. The area is bounded on the east, north, west, and south by the following coordinates, connected by straight lines in the order listed:

<i>Point</i>	<i>N. Lat.</i>	<i>W. Long.</i>
<i>G</i>	<i>43°00.00'</i>	<i>69°30.00'</i>
<i>H</i>	<i>43°00.00'</i>	<i>70°00.00'</i>
<i>K</i>	<i>42°30.00'</i>	<i>70°00.00'</i>
<i>L</i>	<i>42°30.00'</i>	<i>69°30.00'</i>
<i>G</i>	<i>43°00.00'</i>	<i>69°30.00'</i>

- During a Redfish Exemption Trip, any codend that is only authorized on a Redfish Exemption Trip must be stowed below deck and can only be retrieved after completing the requirements identified in paragraph 8 below.*

Part 1 of Redfish Exemption Trip

6. *When a vessel declares a “Redfish Trip” via VMS, it may fish outside the Redfish Exemption Area during Part 1 of the Redfish Exemption Trip in accordance with otherwise applicable regulations and sector exemptions. However, fishing outside of the Redfish Exemption Area first is optional. A vessel may choose to immediately transit to the Redfish Exemption Area and begin fishing.*
7. *Any catch thresholds do not apply for Part 1 of the trip.*

Part 2 of Redfish Exemption Trip: Switching Codends

8. *When the vessel plans to target redfish, it must travel to the Redfish Exemption Area. Once the vessel is in the Redfish Exemption Area, immediately before switching codends, it must send a Multispecies Catch Report via VMS. This report is in addition to the daily Multispecies Catch Reports that are required when utilizing this exemption. The Multispecies Catch Report a vessel must send before switching codends must provide a good faith estimate of all fish caught by the vessel that day between 12:01 AM and the time of the report, and must fill out Step 5 indicating that it intends to use the exemption immediately after sending the report. After the vessel is in the Redfish Exemption Area and submits the required catch report, it may retrieve the 5.5-inch mesh codend from below deck and begin using it. The vessel may use a 5.5-inch mesh codend (or greater) for the remainder of the trip in Redfish Exemption Area.*
9. *Once a vessel sends the Multispecies Catch Report via VMS indicating that it is switching to the smaller mesh codend (Step 5), it is prohibited from fishing outside the Redfish Exemption Area.*
10. *The vessel must submit a final Multispecies Catch Report, in addition to other required Multispecies Catch Reports, and a Trip End Hail via VMS once it stops fishing and begins its return to port.*

Summary Of All Redfish Exemption Trip Reporting Requirements

1. *Submit a trip start hail declaring a redfish trip*
2. *Submit VTRs when switching chart area, gear, and/or mesh size.*
3. *Submit daily catch reports of all kept fish by 9 AM the following day.*
4. *Send a catch report of all kept fish since 12:01 AM of that day, with Step 5 completed.*
5. *Submit a final catch report and Trip End Hail at the end of the trip.*

Monitoring Catch Thresholds

For all trips declaring the redfish exemption and targeting redfish under Part 2 of the trip, at least 50% of the total groundfish kept must be redfish. For observed trips (NEFOP/ASM) declaring the redfish exemption and targeting redfish under Part 2 of the trip, total groundfish

discards (including redfish) may not exceed 5% of all kept fish. If after at least one month, it is determined that the sector is not meeting one of these two thresholds, NMFS will notify the sector and be given 30 days to modify fishing behavior in order to meet both thresholds. NMFS retains the authority to rescind the exemption if either threshold is not being met.
