

**Table 2. Stock Assessments and Catch Data that Support Status Determinations made through 2017**

NOTE: Citations are provided for stock assessments, including year assessment was finalized and last data year in the assessment. If Catch Data years are referenced, the overfishing status is based on the most recent catch data. Only the most recently accepted assessment or catch data are cited and does not include assessments that were rejected. Assessments that have been accepted, but not yet used for the basis for status determinations are not included.
