

APPENDIX I:
Import Data from NMFS'
Statistics and Economics Division*

*Explanatory notes: Categories of fish and fish products that are the subject of this Petition are highlighted in yellow. Unfortunately, the U.S. government does not consistently maintain trade data down to the species level. Thus, several of the fish and fish products at issue in this Petition are contained within broader categories (*e.g.*, “Marine Fish NSPF Fresh”). In such cases, yellow highlighting indicates that one or more of the fish and fish products identified in this Petition may fall within the highlighted category.

National Marine Fisheries Service Fisheries Statistics and Economics Division

You asked for the following

Trade Type: IMPORTS
 From: January, 2014
 Through: September, 2018
 Product:
 Countries: NEW ZEALAND

Note: If a month is not listed, then we do not have data for that month. Current data through September, 2018.
