[1] The International Pacific Halibut Commission establishes halibut season dates under authority of the Halibut Act. The Regional Administrator, NOAA Fisheries (NMFS) establishes IFQ sablefish season dates by publishing a notice annually, in the Federal Register. Sablefish seasons have been set simultaneous with those for halibut to reduce waste and discards.

[2] "Fishing Year" is a calendar year. Fishing under the IFQ program and the CDQ halibut program started in 1995.

[3] After the season closing date: (a) IFQ and CDQ halibut may not be retained, and (b) IFQ sablefish is closed for directed fishing. However, a person fishing under IFQ permits with unused IFQ sablefish must retain sablefish, up to the maximum amount allowable in the area and using the gear type under which the person is fishing.
