

National Marine Fisheries Service - 2016 Status of U.S. Fisheries  
Stock Assessments and other Sources that support Status Determinations

All stocks for which an overfishing or overfished determination were made are included in this table. Only the most recently accepted assessment is cited and does not include assessments that were rejected. In some cases, more than one stock or stock complex is assessed to provide the basis for a status determination. Assessments that have been accepted, but not yet used for the basis for status determinations are not included.

**Stock Assessments that Support Status Determinations made through 2016 for Stocks Contained in Federal Fishery Management**
